### Chapter 1 – Establishment of Zone Districts

#### TITLE 4 ZONING

#### CHAPTER 1 ESTABLISHMENT OF ZONE DISTRICTS

#### 4-1-100 GENERAL

Specific Zone Districts have been established in portions of the county to provide appropriate standards for all types of development. The districts outline minimum standards for development.

The following should be considered when applying the specific district regulations:

- a. Density for residential lots is computed using the entire net area of the lot or tract which *excludes* any area encompassed in adjacent public rights-of-way [IN INSTANCES WHERE SEWER AND WATER ARE PRESENT](#). For example, in an MR district, 6,000 square feet is required per single-family unit. On a 24,000 square foot site where there are no requirements for roads or right-of-way dedications, four (4) single-family units are permitted, provided the site is subdivided into individual lots. Units may be clustered on the site provided that the remainder of the site is developed as open space. Clustering must be approved by both the Board and the Cheyenne-Laramie County Division of Environmental Health.
- b. As long as State law requires, all subdivisions are subject to review by and shall conform to the State Department of Environmental Quality Rules and Regulations. Should a situation arise whereby State Department of Environmental Quality Rules and Regulations require minimum lot or tract sizes in excess of those stated in this zoning regulation, the greater lot or tract size shall be required.
- c. Uses listed under each district are specific and exclusive to that district.  
Uses not listed are specifically prohibited unless otherwise provided for.
- d. If a specific development standard is not listed in a district, there are other sections of the regulation which may need to be consulted. Parking requirements, screening and buffering requirements, site plan requirements and landscaping requirements may be applicable. In addition, certain uses have specific requirements outlined in general sections of the regulation. Examples are: Home Occupations; Child Care and Assisted Living Facilities; Manufactured Housing; and Stables, Arenas and Kennels.

#### 4-2-112 DISTRICT PUD - PLANNED UNIT DEVELOPMENT

A planned unit development shall permit flexibility and creativity in site, building design and location in accordance with an approved plan and specific regulation which shall be written in a manner as to prevent adverse impacts and protect the public health, safety and welfare. Design excellence or the provision of outstanding public amenities shall be considered when establishing development standards. The planned unit development regulation shall be considered the zoning regulation for the property described in that regulation.

##### a. PUD Designation

A planned unit development designation is appropriate when at least one of the following is incorporated:

- i. Development of compatible land uses that provides private and common spaces for recreation, circulation or open space.
- ii. Conservation of natural features or development of desirable amenities
- iii. Creation of areas for mixed uses not ordinarily permitted together in other districts that are of benefit to the development and that are so designed as to prevent negative impacts to the surrounding areas. Industrial uses may be developed with other uses when the negative impacts are proven to be mitigated.
- iv. Creation of large areas for a wide variety of commercial or industrial uses such as shopping centers and their associated developments so that these uses can benefit from combined planning and standards.

##### b. District Requirements

# The Laramie County Land Use Regulations

## Title 4: Zoning

### Chapter 2 - Zone Districts

Approval of any PUD shall be based on the overall compatibility with existing adjacent uses or proposed future uses. The applicant shall identify how the proposed PUD meets the goals of the Comprehensive Plan.

District standards shall be written in the PUD to mitigate any environmental, traffic, drainage or other area impacts that may result from the uses allowed within the district.

For PUDs with multiple use districts, a plan showing the location of each use shall be provided with the application.

c. Sketch Requirements

Applicants shall meet with Planning and Development Office staff before submitting any application for approval of a PUD. The applicant may, at the discretion of the Director, be required to submit a sketch plan detailing the applicant's intent. The plan may be forwarded to the Planning Commission for comment only. Comments shall not be construed as an approval of any sketch plan. The sketch shall identify the need and proposed specifications of the PUD.

d. Preliminary Regulation

An applicant may, at the discretion of the Director, be required to submit an application for preliminary plan and draft regulation for review by the Planning Commission. The Preliminary Regulation shall address the requirements in 4-2-112 e. iii.

e. Final Plan and Regulation or Resolution

An applicant shall be required to submit an application for final plan and regulation for review by the Planning Commission and Board. The following criteria must be met for the Planning Commission and Board to act on the Planned Unit Development:

- i. The planned unit development regulation as proposed by the applicant will prevent adverse impacts between land uses within or adjacent to the proposed PUD, or will appropriately mitigate them to protect the public health, safety and welfare.

# The Laramie County Land Use Regulations

## Title 4: Zoning

### Chapter 2 - Zone Districts

- ii. Wherever possible, the PUD incorporates high quality design elements, such as conservation design, on-site storm water management, centralized wastewater management, on-site renewable energy production, pedestrian and bicycle accessibility, low profile and monument signs, or other elements intended to promote aesthetic value and integration with the natural environment or other improvements.
- iii. The regulation or resolution approving each planned unit development shall specify the following if applicable:
  - A. Uses by right and location
  - B. Uses permitted by Board approval and location
  - C. Minimum property sizes, if more than one owner or lot
  - D. Maximum property area for each use
  - E. Building, property or site coverage
  - F. Maximum building height
  - G. Minimum setbacks on the front, rear and side yards
  - H. Development performance standards
  - I. Buffering and screening requirements
  - J. Common open space or facilities
  - K. Signage -requirements and regulations
  - L. Parking requirements, if different than those required in any other requirements and restrictions
  - M. Proposed ownership of common facilities

f. Amendments, Minor

Any minor amendments to a planned unit development regulation or resolution after approval must be approved by the Planning and Development Director on

the basis of a new final plan. A new plan map is not required if the amendment to the text of the regulation or resolution has no effect on the adopted final plan map. *Minor* is defined as not impacting the use, intensity or overall concept of the existing plan.

g. Amendments, Major

Any major amendments to a planned unit development regulation after approval must be approved by the Planning Commission and the Board on the basis of a new final plan. A new plan map is required if the amendment to the text of the regulation has an effect on the adopted final plan map. Major amendments are defined as those not meeting the definition of a minor amendment.

h. Existing Planned Unit Developments

All planned unit developments which have been approved and are shown on the zoning maps at the effective date of this regulation shall be developed in the manner in which they were originally approved. All existing planned unit development regulations shall be a supplement to this regulation and shall be on file with the Planning and Development Office and the Laramie County Clerk. Any planned unit developments shown on the zoning maps that do not have a specific planned unit development regulation shall be regulated in conformance with the zone district regulation that most closely matches the existing use, or shall have a regulation approved by the appropriate governing body in conjunction with this regulation or prior to any future development or changes of use within that planned unit development district.

**4-2-113 DISTRICT DI – DEVELOPMENT INCENTIVE DISTRICT (RESERVED)**

**4-2-114 DISTRICT URI – URBAN-RURAL INTERFACE DISTRICT (RESERVED)**
