SPECIAL REQUIREMENTS:
MAXIMUM SPEED ON LARAMIE COUNTY ROADWAYS SHALL BE 35 M.P.H.

---

1. Any load hauled on Laramie County roads that exceeds the legal weight and size limitations prescribed by Wyoming State Statute for State Highways is required to have a permit issued by Laramie County to move on Laramie County roadways (WWS-31-5-1002).
2. A permit must be issued two (2) business days before the load is moved. (Except when prior approval is given and/or emergency situations).
3. Any element of an overweight load that can be reasonably removed shall be removed and transported separately to reduce the weight of the load.
4. Oversize loads may require carrier escort as specified in item 13) part A).
5. The Laramie County Public Works Department shall be notified within a reasonable time prior to the movement of any oversize/overweight load. This department may postpone the move if poor road conditions or maintenance operations dictate.
6. Any oversize/overweight load found to be moving on ANY Laramie County road may be stopped by the Laramie County Sheriff's Department for verification of permits. If no permit can be produced, a citation may be issued, and at the discretion of the law enforcement officer the vehicle may be ordered not to be moved until a permit has been approved by the Public Works Department. The carrier and/or operator of the vehicle may be subject to a fine as provided herein.
7. In the event that an oversize/overweight load is found to be moving on any Laramie County road without a permit, the carrier and/or operator may be cited for the violation. At the discretion of the law enforcement officer, the vehicle may have its movement halted or limited until a remedial permit has been obtained and an additional fee of $250.00 shall be imposed for issuance of such a remedial permit. Issuance of such a remedial permit does not prevent citation for a violation nor does it remediate any fine amount imposed.
8. Permits will be reviewed and the applicant notified of their disposition as soon as possible. Permits may be delayed if all information that is required is not supplied on the initial permit application.
9. All permits issued after the oversize or overweight load has been moved, may be assessed a $250.00 post-permit fee per load.
10. The issuance of a permit shall not be construed to warrant the condition of the roadways and structures and shall not relieve the holder or their assigns acting on the holder's behalf from responsibility for damages to any roadway structures or other appurtenances. By issuance of this permit Laramie County does not waive its governmental immunity as provided by any applicable law, including WS 1-39-101 et seq. and retains all immunities.
11. Any repeated violations of the terms and conditions expressed herein may result in Laramie County taking action by revoking the access and driveway permit of the entity or operator engaging in the business activity served by the violating oversize or overweight vehicle(s).
12. A permit is not required for implements of husbandry as defined at WS 31-18-801 (a)(l) and (xvii) which exceed legal width.
