**OFFICE OF THE CORONER
LARAMIE COUNTY**

Rebecca Reid, Coroner
Office: (307) 637-8000
Fax: (307) 633-4524

To the Citizens of Laramie County,

It is my pleasure to present the 2018 annual report for the Laramie County Coroner's Office. The goal of providing this information is to be transparent and provide statistical data, while maintaining confidentiality, respect, and integrity to the citizens of Laramie County.

The information in this report is compiled from records generated by the Laramie County Coroner's Office. The data provided represents numerical, demographic, and statistical information.

Hopefully you will find this information useful for your research endeavors. If you have any questions or need further information or clarification, please contact the Laramie County Coroner's Office.

These statistics have been generated from the data compiled by the current administration from the previous administration. The mission/vision statement and purpose was added to the report when I took office in January 2019.

Respectfully,

A handwritten signature in blue ink that reads "Rebecca Reid".

Rebecca Reid, Coroner
Laramie County, Wyoming

MISSION & VISION STATEMENT

To provide professional medicolegal death investigation by determining cause and manner of death, identifying decedents, notifying next-of-kin, and protecting decedent's property.

To be the leader in providing compassionate & efficient service to the people we serve in accomplishing our mission statement

DESCRIPTION, PURPOSE, AND FUNCTION OF THE LARAMIE COUNTY CORONER'S OFFICE

The Office of the Laramie County Coroner was established with jurisdiction coextensive with the boundaries of Laramie County, Wyoming.

It shall be the duty of the county coroner to determine the cause of death of any person reported to them as having been killed by violence; has suddenly died under such circumstances as to afford reasonable grounds to suspect or infer that death has been caused or occasioned by the act of another by criminal means; has committed suicide; and to determine the cause of all deaths as to which applicable state law makes it the duty of the coroner to sign certificates of death.

As the community continues to grow, so does the role of the Laramie County Office of the Coroner. The office has three distinctive divisions that work well together in an effort to provide support to the other divisions as well as to the public we are called upon to assist. Due to the nature of this most sensitive business, our goal is to provide compassionate service to those that we serve.

An obligation rests with each staff member to render honest, efficient, courteous and discrete service on behalf of the office.

As an overview of the office, a call is received reporting a death. An investigator is dispatched to the location and conducts an investigation into the circumstances surrounding the death. If the case falls under our jurisdiction, the decedent is transported to our office where an autopsy or external examination is conducted to determine the cause and manner of death. The investigator generates a written report, which is provided to the Forensic Pathologist prior to the autopsy/examination. If an autopsy is performed, an autopsy report is generated. The decedent is then released to a local funeral home. A Death Certificate is generated.

WYOMING STATE STATUTES

CHAPTER 6

Standards dealing with the Investigation of Coroner's Cases

Section 1: Definitions.

W.S. 7-4-104 is appended to these standards as Appendix A and adopted and incorporated herein.

Section 2: Conduct.

Coroners shall act in accordance with all relevant state and federal law. In addition, in dealing with the deceased, the family of the deceased, and the general public, the Coroners shall conduct themselves in a manner consistent with the highest standards of professionalism, compassion, and respect.

Section 3: General.

- (a) The Coroner shall work jointly with all law enforcement agencies having jurisdiction in a death scene investigation.
- (b) The Coroner has jurisdiction over and shall take custody of the body.
- (c) The Coroner shall assume responsibility for the property of the deceased.
- (d) Evidence is the responsibility of law enforcement and/or the Coroner.
- (e) The Coroner shall protect the chain of custody for any evidence in their custody.
- (f) The Coroner shall provide for transportation, security, and preservation of the deceased until released to the next of kin or their designee.
- (g) The Coroner shall pronounce death, and record the date, time, and location.
- (h) The Coroner shall provide for the notification of next of kin.
- (i) The Coroner shall provide the office staff and investigators:
 - (i) Safe and adequate equipment to perform any duties of the office; and
 - (ii) Adequate and appropriate safety and personal protective equipment suitable for the circumstances of the investigation.

Section 4. Investigations.

(a) The Coroner shall identify the deceased and determine the Manner and Cause of death as accurately as possible.

(b) In determining the Manner and Cause of death, the investigation shall include:

- (i) Scene Investigation;
- (ii) Toxicology sample on the deceased;
- (iii) Inventory of property, evidence, and medications;
- (iv) Photographs;
- (v) External Exam; and
- (vi) DNA sample.

(c) The Coroner shall issue a written report for all death investigations. The written reports may include but are not limited to, data from measuring devices, diagrams, evidence and body labeling, interviews, psychological and social histories, medical histories and consultation with physicians, autopsy, fingerprints, radiology, odontology, or DNA profiles or any other method necessary to determine the cause and manner of death.

(d) Investigations requiring a forensic autopsy of the deceased shall be conducted by a Forensic Pathologist who has been certified in that specialty by a nationally recognized certification board.

(e) All investigations will be completed in a reasonable time. The term 'reasonable time' is defined as that time period necessary to complete and collect data and information from toxicology, autopsy, or other investigation procedures, to determine with medical certainty a manner and cause of death.

Section 5. Records.

The Coroner shall maintain all public records in accordance with W.S. 9-2-405 through 9-2-413.

STAFF

The 2019 staff of the Laramie County Coroner's Office consisted of the following

Coroner: Rebecca Reid

Rebecca was born in Tucson, Arizona and moved to Florida when she was three years old. Rebecca moved to Cheyenne, WY with her military family seven years ago. Rebecca is proud to call Cheyenne her home. She has extensive field experience and educational qualifications that have served the countless communities she has been a part of extensively.

Prior to moving to Cheyenne, Rebecca served as death investigator with the District 14 Medical Examiner's Office in Panama City, Florida for seven years. She served as Deputy Coroner for Laramie County Coroner's Office from December 20, 2013 before being promoted to and serving as Chief Deputy Coroner since October 1, 2014. During the past seven years she has embraced the responsibility that comes with guiding families through the most difficult time in their lives; the loss of their loved ones. Rebecca's promise is to continue serving Laramie County and each decedent and family member with dignity, compassion and respect.

Chief Deputy Coroner: Char Madden

Char was born and raised in Cheyenne, Wyoming and graduated from Central High School. She has always had a passion to help people, which lead her to a career in law enforcement. Char started her law enforcement career when she was 21 years old working at the Laramie County Detention Center as a deputy sheriff and was later promoted to Sergeant. Char continued to work at the detention center until 2009, but stayed with the

sheriff's office as a reserve deputy. In 2012 Char took a position with the Pine Bluffs Police Department as a patrol officer and during this tenure started teaching D.A.R.E. to 6th graders. In 2015 Char returned to the Laramie County Sheriff's Office working as a patrol deputy and specialized as an FTO (Field Training Officer), mounted patrol, and D.A.R.E Officer.

She transferred to the Laramie County Coroner's Office in January 2019. Char also has been to numerous schools and training to include investigations, cold case homicide investigations, crimes against children, blood splatter analysis training, and crime scene photography and processing. She continues teaching D.A.R.E for Pine Bluffs Police Department and Mounted Patrol for Wyoming State Parks.

Executive Assistant: Amber Dancliff

Amber was born in Saint Joseph, Missouri and is from a small town of 950 people Oregon, MO is situated in the Northwest corner. She went to a K thru 12 school, where she played basketball and volleyball and graduated in a class size of 35. She moved to Cheyenne, Wyoming in 1998, and is married with two children.

Amber began working for Laramie County Coroner's Office in January of 2019 once the newly elected coroner Rebecca Reid took office. She is well versed in the process of the Laramie County Coroner's Office and is very passionate about what she does.

SIZE AND POPULATION OF LARAMIE COUNTY

The geographic area serviced by the Laramie County Coroner's Office includes all of Laramie County, as well as incorporated towns of Pine Bluffs, Burns, Albin, Carpenter, Hillsdale, and the City of Cheyenne.

Laramie County is 2,688 square miles located in the SE corner of Wyoming and shares a border with Nebraska to the east and Colorado to the south. It is at the crossroads of two major interstate highways and two major railroads. Residents enjoy a stable, growing economy, a high-quality of life, excellent educational system and a low tax structure.

As of July 1, 2018 the United States Census Bureau reported Laramie County's population as 98,976, which makes Laramie County the largest populated county in Wyoming. Cheyenne is the county seat and state capital for Wyoming.

CAUSE AND MANNER OF DEATH

The Cause of Death is the official determination of the disease or injury and the sequence of events responsible for the occurrence which leads to the individual's death.

The Manner of Death is the description used to classify the conditions that caused a death and the circumstances by which they occur. Manner of death is determined largely by means of the investigation. In Wyoming, there are five (5) manners of death, listed below.

NATURAL: Death caused by disease process.

SUICIDE: Death as a result of a purposeful action to end one's own life.

ACCIDENT: Death other than natural where there is no evidence of intent.

HOMICIDE: Death resulting from injuries intentionally inflicted by another person.

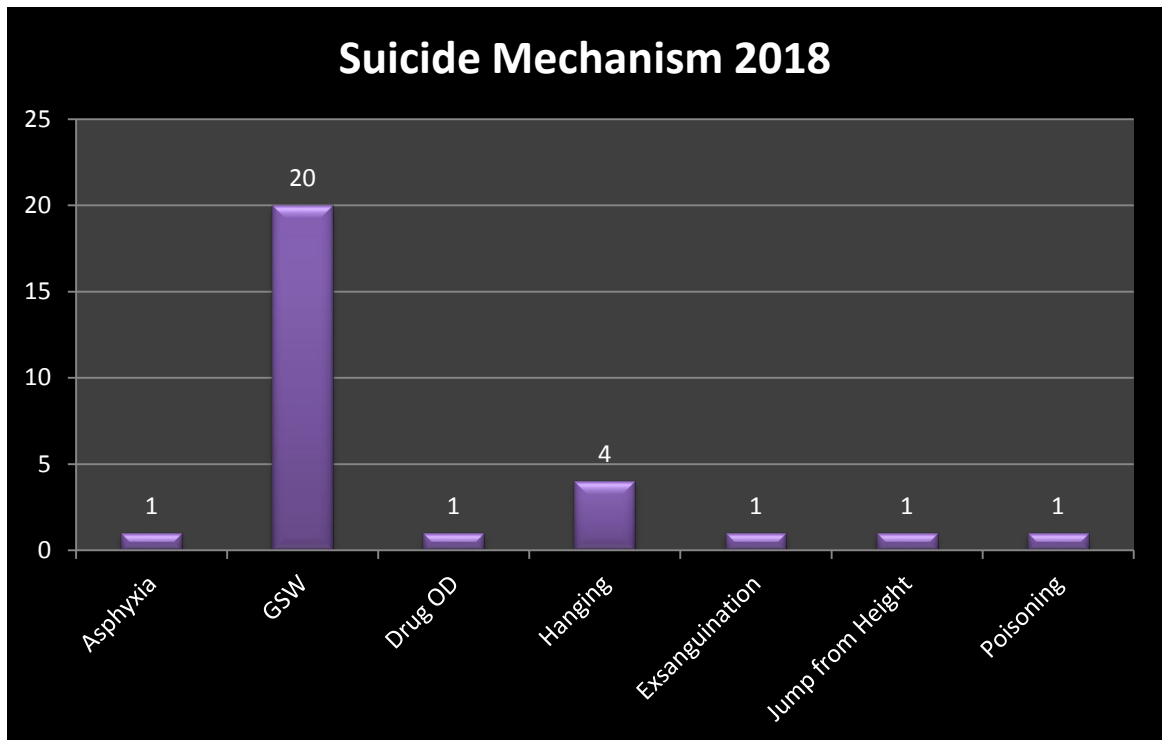

UNDETERMINED: Manner assigned when there is insufficient evidence, or conflicting/ equivocal information (especially about intent), to assign a specific manner.

STATISTICS

The Laramie County Coroner's Office investigated 297 deaths during 2018. All 297 cases were completed with an investigation. The number of deceased transported to the morgue is 89. Of the total deaths, 213 were classified as "natural" deaths with 39 accidental deaths, 29 suicide deaths, 3 homicides, 2 undetermined manners of death, and 11 assist outside agencies. Out of the total cases 21 were county funded burials and 2 were unclaimed. There were 12 eye bank donations and 9 organ/tissue donors were reported in 2018.

SUICIDES

Suicide is death caused by intentional, self-inflicted injuries. In Laramie County during 2018 there were 29 suicides compared to 24 in 2017.

SUICIDES (Continued)

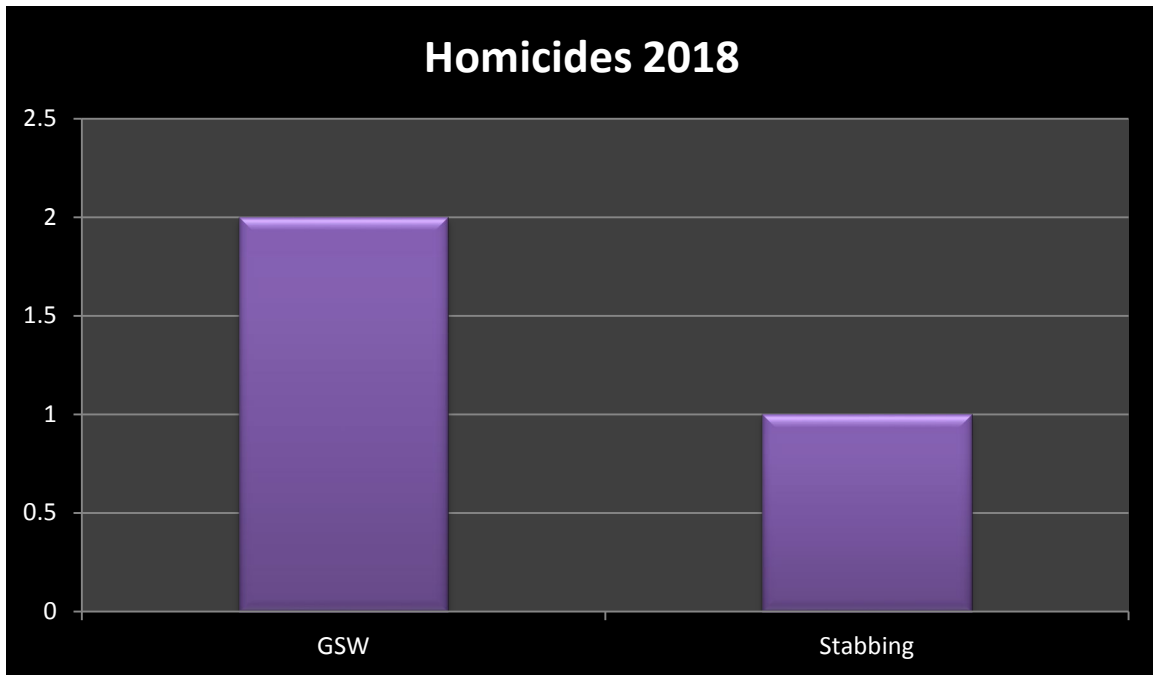

ACCIDENTAL DEATHS

Accidental deaths are those deaths that are other than natural where there is no evidence of intent; i.e. an unintentional event or chain of events. This includes most motor vehicle crashes, falls, drowning, accidental drug overdoses, fire related deaths, accidental gunshot wounds, etc. During 2018, 39 deaths were classified as accidental.

HOMICIDE

Homicide is death resulting from injuries intentionally inflicted by another person.

NATURAL DEATHS

Out of the 213 Natural Deaths the top six are listed. There were 2 undetermined deaths for 2018.

The cardiac category includes all cardiac events such as Myocardial Infarction, Sudden Cardiac Death, and Atherosclerotic Cardiovascular Diseases, Congestive Heart Failure etc.

The respiratory category would include all respiratory events such as COPD, Emphysema, etc.

Fetal Demise is a clinical term for stillbirth used to describe the death of a baby in the uterus. The term usually applies to losses at or after the 20th week of gestation.

INVESTIGATIONS

Total investigations completed by the Laramie County Coroner's Office in 2018 totaled 297 cases. These cases included human vs non-human remains and cases which are reported to our office after the fact or backwards cases.

AUTOPSY

The Laramie County Coroner's office ordered 70 full autopsies in 2018. An autopsy is just one of the many tools the coroner's office depends on to help determine the manner and/or cause of death. All 70 autopsies included an external exam. Thirteen of those autopsies were of decedents who died at the hospital.

Not all deaths are autopsied. Required autopsies by state statute are those who are babies or children, all homicides, prisoner, trustee, inmate or patient of any county or state corrections facility or state hospital, suspicious deaths (to include anyone with trauma), and anyone who has not seen a doctor or does not have a primary care physician to advise why the deceased died.

TOXICOLOGY

Lab specimens are drawn on every autopsied case. Not all cases are necessary to order toxicology on. With those cases, a specimen is collected and saved for one year then destroyed if not used.

YEAR –TO-DATE SUMMARY REPORT 2018

 Laramie County Coroner's Office Year-to-Date Summary Report End Date: 12/31/2018
