

PUBLIC NOTICE: Do you need to re-register to vote?

More than 15,000 Laramie County voters were removed from the voter registry in February 2023. This is because state law requires county clerks to annually purge and update the registry not later than the 15th day of February each year. Most voters are removed from the registry because they did not vote in the last general election. Those who have been removed must re-register to participate in this year's elections.

Is your name among the list of those who need to re-register? Wyoming does not have online registration. There is no convenient "look up" to verify if your registration is active and your information is current. That's why the Laramie County Clerk is taking this extraordinary step of posting the list of those purged by city.

Be ballot ready for the 2024 elections by registering in advance. Know *before* you go to the polls that you are registered and ready to vote. If your name appears on the list below, please contact the Laramie County Clerk's election office to verify your registration. If you need to re-register, come to our office, sign up at one of the County Clerk's sponsored registration outreach events, or register at the office of a town clerk in Albin, Burns, or Pine Bluffs. Need to mail your registration? Use the official mail-in Wyoming voter registration application, have it notarized, and enclose the required identification document(s). If you have a Wyoming driver's license, you must provide it. As a last resort, you can register at the polls during early or Election Day voting but be sure to bring the required identification.

Please note that the list below may include individuals who have left Laramie County or Wyoming. It may also include the names of those who have passed. And it may include names of people who recently renewed their registration. Our intent is to reach as many Laramie County residents as possible and let them know they may need to re-register before voting.

Laramie County Clerk Elections: 633-4242
